What is the „Landesweinprämierung“ about?

The winemakers in Rhineland-Palatinate (RLP) produce about six million hectolitres wine and sparkling wine of highest quality - year after year. Nearly six percent of these products are awarded by the chamber of agriculture and wine growing with a „Kammerpreismünze“ in gold, silver or bronze. With nearly 17.000 products from more than 1.200 vineyards participating on average the „Landesweinprämierung“ it is the most important and biggest wine-contest in our state and one of the most remarkable contests in Germany at all. Six wine growing areas are located in RLP, the Number-1-Wineland in Germany: Ahr, Mittelrhein, Mosel, Nahe, Pfalz and Rheinhessen. An important thing to know.

What function has this contest?

Because everyone is looking for best qualities - it's that simple. We offer the consumer a dependable guide to the best wines in RLP. A team of experts, often wine-growers by themselves, check the products from the different growing areas, knowing about the special characteristics in each area. So the customer can be sure, that a bottle which is signed with a „Kammerpreismünze“, contains high quality wine, made in Rhineland-Palatinate. It is a consumer's guide to the best wines of RLP.
